

5 Core Wall Mount Speaker- Sound that Blends Seamlessly with Style

About Item

1. **Designed to live indoors & outdoors:**These Wall Mount speakers are versatile and designed for both indoor and outdoor use. They can be placed or mounted in any open space, such as on a bookshelf, under your patio, in the garage, or by the pool. Regardless of placement, they will deliver extraordinary sound and have a maximum output power of**20W**. The mounting type for these speakers is a wall mount.
2. **Digitally Optimized:**The 5 Core Wall Speakers are digitally optimized for expansive dispersion and powerful bass. When synchronized, these wall mount speakers create a state of accurate acoustic dispersion with deep, rich-sounding bass, resulting in a truly full range of sound.
3. **Effortless mounting swivel brackets:**Effortless mounting is possible with the swivel brackets that are part of the design of these speakers. They can be mounted in a matter of seconds in any open space and provide a range of high-fidelity sounds.
4. **All-weather resistant coating:**These 2 way wall speakers are made to withstand every season, as they are coated with UV-resistant resin and placed inside an ABS enclosure. This weather-resistant coating protects the wall mount speakers from the elements while preserving sound integrity.
5. **Engineered for great sound:**Engineered for great sound, the wall speakers utilize a high excursion speaker that can be aimed to project a spacious sound stage. This amazing speaker system is well-suited for a range of applications.
