

## RACK STAND 12U

### About Item

1. **2-Layer Storage:** The 5 Core 2-layer studio rack features a large upper platform measuring 22 15/16"x20 15/16". The mixer table has side mounting holes for crossbars( not included) that can hold mixers. The bottom rack mount is 20 14/16" x 19 11/16", and it comes with vertical side holes for mounting baffles. These baffles can stably hold your amplifier, equalizer, or power conditioner, ensuring your equipment is safe and secure.
2. **Easy Mobility:** The easy mobility of this rack is enhanced by the integrated 4 rolling wheels. You can move the mixer rack to different positions as needed without any difficulty. For added safety, two wheels feature a lockable option that firmly holds the stand in place. This ensures that the DJ mixer stand remains stable and secure when you move it around.
3. **45° Adjustable Platform:** The sound cart lets you adjust the angle of the top rack with ease. You simply twist the side knobs to create either a completely flat or slightly slanted surface. This allows you easier access or visibility depending on the situation and use case.
4. **Durable & Stable:** The durable and stable construction of this mixer rack makes it an ideal choice for your equipment. Its sturdy metal construction provides strong support for your equipment, with a maximum load capacity of 220.46 Lbs. You can be sure that your equipment is safe and secure on the mixer rack.
5. **Wide Application:** The 5 Core keyboard rack can be used with any sound equipment and is suitable for a wide range of applications, including clubs, public amenities, outdoor shows, studios, and stages.
