About Brand

5 Core, headquartered in California, warehouse in Bellefontaine, OH, USA, has a reputation for being a trusted and reliable brand, offering products designed to meet the highest industry standards. Our products are thoroughly tested and inspected before they are sent to the end user, ensuring that the customers receive products of the highest quality and reliability. With a commitment to quality, affordability, and customer satisfaction, 5 Core is a brand people can trust for all their needs and wants.

Great in both Vocal and Instruments:

Wide frequency response makes it an ideal mic to capture vocals, acoustic guitars, acoustic pianos and even strings as the condenser can take an accurate snapshot and capture all the subtleties and nuances inherent in these instruments.

Shock Mount

This professional suspension shock mount isolates most studio condenser mics from physical vibration, floor, and stand noise. It is a very nice shock mount for most large diaphragm condenser microphones.

Dual Layer Pop Filter

Double layered screen pop filters: the first screen blocks air blasts as any pop filter normally would; The gap in between then disperses any remaining air pressure, so by the time it passes the second screen, the blast is easily contained to produce great quality recordings.

Xlr Cable

Strong XLR DELUXE TO 1/4 AUDIO METAL JACK for a large moving range, no distraction from the limited wire length anymore.

XLR MICROPHONE

CONDENSER MIC FOR
COMPUTER GAMING, PODCAST,
STREAMING, RECORDING,
VOCALS, VOICE, CARDIOIDS

Q&A

Question:What is included in the recording microphone bundle package?

Answer:The bundle package includesCondenser Recording Microphone, Shock Mount, Dual Layer Pop Filter, Tripod stand, Sponge foam, and XLR Cable.

Question:Are microphone bundles suitable for professional use?

Answer:The bundle package is designed for professional use and includes high-quality microphones and accessories.
