

Novacap™ brand Safety Certified capacitors - X², X¹, Y²

The X² (LS style) and X¹ & X¹/Y² (ES style) Class Compliant chip capacitors specifically designed for use in modem, facsimile, telephone and other electronic equipment where lightning or overvoltage surges can occur.

Both styles are rated at 250 Vac safety approved with COG/NP0 and X7R dielectrics available (dependant on style).

Note - Legacy range planned for obsolescence. Not for new designs. Superseded by Syfer brand safety certified capacitors. See cross reference below
