

# MIDCON WIRING SOLUTIONS

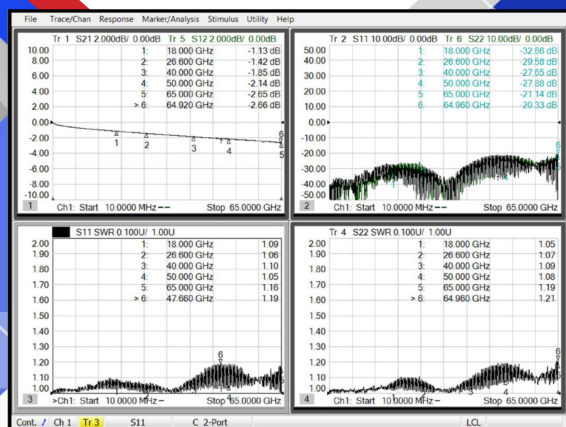

## *RF Assemblies*®

### Introduction:

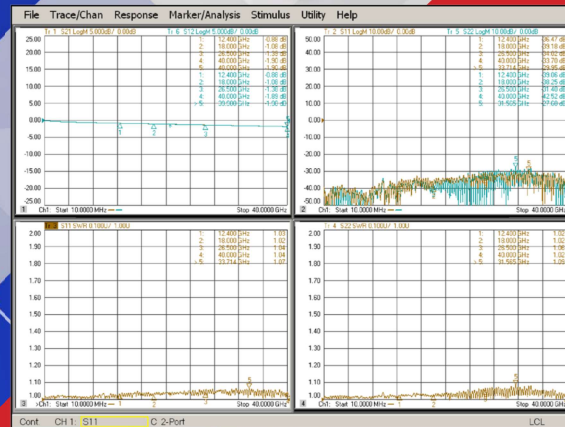

The Midcon RF Cable Assembly product line provides a variation of RF Coaxial solutions. These high performance, low-cost RF assemblies provide test solutions for frequencies up to 67 GHz. Cable types include low frequency RG cable solutions to low loss, high frequency RF cable solutions with cable diameter sizes up to .141 OD.

### Benefits:

- Low Cost
- Quick To Market, Short Lead Times
- DC-67GHz
- Insertion loss/VSWR/Return Loss testing
- Test & Measurement Applications
- 5G
- Bench top testing Multiple cable diameters, up to .141
- Low to high frequency Low loss
- Commercial applications Inside the box applications
- Military & Defense Phase Matching up to +/-1.0 p

.086 OD Flexible 1.85mm Male to 1.85mm Male, 12" assy

.086 OD Flexible 2.92mm Male to 2.92mm Male, 12" assy
