Mobile thermal transfer printer for marking materials in cartridge format incl. accessories. The printer can print pre-punched labels as well as materials in continuous format up to a material width of 24 mm. Scope of supply: battery, power supply unit incl. 4 adapters, USB cable, MM-EML (20X8)R C1 WH/BK, quick guide

## Product Description

The THERMOMARK GO is a mobile printer which elevates the digitalization of industrial identification to a new level with its intuitive operation via smart device. Controlled via the MARKING system app, the robust printer creates markings directly on site. Features such as state-of-the-art interfaces, fully guided creation of application-specific marking solutions, and automatic material detection make the process of creating markings particularly easy and error-free. The ability to print punched materials as well as continuous media offers professional users a wide variety of applications in industry and trade.

Note:

This product is approved for the following countries only and may only be used in these countries.

## Your advantages

- Maintenance-free operation with proven thermal transfer printing technology
- Printing of pre-punched die-cut materials and continuous media; adhesive labels, marking labels, and shrink sleeve
- Operated entirely via digital devices using the MARKING system app
- Alternative control via the PROJECT complete software
- User-friendly operation with context-based menu navigation of the MARKING system app and Application Wizards for easily creating application-specific marking solutions
- The THERMOMARK GO prints materials in cartridge format, which contain the material to be marked and the appropriate ink ribbon
- Easy material change with the uniform GO SERIES cartridge system
