SMT FLYBACK TRANSFORMER FOR PHOTOFLASH CAPACITOR CHARGER

For use with Linear Technology’s LT3420

- Lowest cost transformer solution
- Optimized design for lowest leakage inductance and secondary side capacitance
- Smallest footprint available: 9.1mm x 9.1mm maximum
- Low profile - height is .205" (5.20mm) maximum

Electrical Specifications @ 25°C — Operating Temperature -40°C to 130°C

NOTES: The PA0367A is a modified version of the Pulse PA0367 which was tested and approved by Linear Technology for use with the LT3420. The PA0367 has now been discontinued. The PA0367A has the same mechanical footprint and size as the PA0367 and meets the requirements of the LT3420 specifications.
