

Information Letter Number: 184101**Date: 11-Oct-2018****Title: Datasheet updates for improved EMC robustness****Product Identification:**

SHT3x-ARP

Reason for Change: Design Production Logistics Manufacturing Location Quality/Reliability Upgrade**Change Description:**

Datasheet updates with more detailed specifications on:

- Sensitivity
- T-accuracy
- Output characteristics
- Reset pulse duration
- ESD ratings
- Layout recommendations for improved EMC robustness
- Minimal and maximal pad length

No changes in product, material or process.

Identification Method to Distinguish Change:

not applicable, no product, material and process change

Samples: available will be available in not applicable**Quantifiable Impact on Quality & Reliability:**

None.
