Bourns® Model FB2000 Series Wide-Band Chokes

Changes to Core Material and Manufacturing Location

Due to circumstances beyond Bourns' control, the core material currently used in the Bourns® Model FB2000 Series Wide-Band Chokes was discontinued. An essentially equivalent replacement material has been developed. The product's form and fit will remain the same while the product's function will have minor electrical specification changes. Mechanical specifications of the series will remain unchanged.

In addition to the core material change, the manufacturing location of this series has transferred from Taiwan to China.

The electrical specification changes are listed below.
