

DUAL ENDED JUMPER CHANGE NOTICE

701 Brooks Avenue South, Thief River Falls, MN 56701 phone: 800-344-4539 fax: 218-681-3380

Original Design

New Design

Digikey has made a design change to its value-added dual ended jumper wires. The original design had the contacts oriented with one end up and one end down.

Digikey has invested in new tooling that provides higher crimp quality. With this new tooling, the contacts will now be oriented the same way on the wire with both contacts facing up instead of one up and one down.
