

PCN - 13 116

Issue Date: November 12 2013

Product Name:	Minitek			
	Minitek Unshrouded Horizontal SMT			
Product Manager:	Franck CHAPOUILLY			
Subject:	Notification of Planned Change			
Distribution:	GLOBAL			
Type of Change:	Process Change			
Change Description:	FCI will be implementing a new automated assembly machine to replace the existing semi-automatic assembly machine. Additionally, a new pick-up cap design will be implemented for those parts requiring pick-up caps. This new design will not affect the pick-n-place application function. Changes are limited to the attachment of the cap to the part itself.			
Reason for Change:	The new assembly machine will allow FCI to meet increased customer demand volumes by improving output levels with higher yield. The change to the pick-up cap will improve the retention of the pick-up cap to the part itself, thus preventing cap loosening during shipment.			
Affected Parts:	10112684 and 10112690 series			
Effective Date of Change:	February	28	2014	<i>Special Note: For EOL PCN's, if no last time buy orders are received within 180 days after issue date, FCI reserves the right to terminate production at any time at its discretion. MOQ and lead time will be negotiated at time of order placement and will be dependent upon material availability. FCI will make every effort to meet customer order requests. Orders placed within the 180-day window, and subsequently cancelled, will be subject to cancellation charges.</i>
Last Time Buy Date:	N/A	N/A	N/A	
Last Disty Return Date:	N/A	N/A	N/A	
Last Time Shipment Date	N/A	N/A	N/A
