## Engineering Change Notification

**To:** All Relevant Customers  
**From:** Newhaven Display Marketing, Business Management

This notice is to inform you of a change to the following product(s):

### **NHD-C12864LZ-FSW-FBW-3V3**

The backlight module on this display has been redesigned to include new latches to better secure the PCB which holds the backlight LEDs.

These latches do not exceed the gap between the backlight frame and display pins, and will not cause an obstruction during the installation and operation of the display.

We also made a change to the LCD glass in order to improve the display contrast for a more black & white appearance.

NEW

OLD

These design improvements should not have any effect on the form, fit or functionality of the display in your application. We understand that each project is unique and therefore recommend you to evaluate new samples for validation.

Please email [nhtech@newhavendisplay.com](mailto:nhtech@newhavendisplay.com) for further information or assistance with this change.
