3 Description

The NORA-B10 series modules have reached Initial Production (IP) status. Final specifications for the product have thus been set, radio tuning is completed, the production system is fully released and country certifications have been completed.

3.1 Certifications

The NORA-B10 series modules are certified according to the regulatory requirements in US (FCC/CFR 47 part 15 unlicensed modular transmitter approval) and Canada (ISED), and the module complies with the regulations set up in the Radio Regulatory Directive (RED) by ETSI for Europe. The module is Bluetooth qualified. Additional country certifications are in progress. See the the Data Sheet [1] and the System Integration Manual [2] for further information about the completed and pending certifications.

3.2 Documentation updates

The documentation listed in section 6 has been updated accordingly.

4 Schedule

This information is effective as of June 28, 2021. All products shipped after this date will have IP status.

5 Customer impact and recommended action

Customers are advised to review the updated documentation.
